

## 【Specifications】

1. Input voltage: 5V-25V
2. Maximum working current: 30A
3. Voltage precision range:  $\pm 0.1V$
4. Current precision range:  $\pm 0.1A$

## 【Operation instructions】

1. Display the voltage and current in turn, show "U" means the next data is voltage & "A" means the next data is current.
2. wiring diagram:

## 【Cautions】

1. Please read this operating manual carefully before install the product.
2. Please do not use it beyond the safe voltage.
3. Please do not use this product in the rain to avoid a short circuit.
4. Please keep this operating manual for inspection at any time.

## 【Warranty clause】

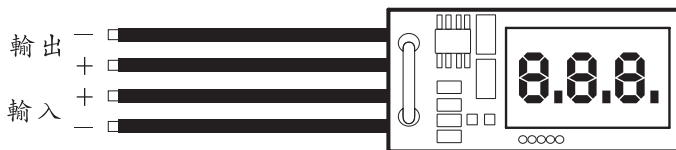

The quality of our products' warranty is 1 year (12 months) since the date of purchase. This warranty only applies to product quality problems after the purchase. During the product warranty, with proof of purchase (invoice or receipt), all products have quality problems can be freely repaired or replaced. However, due to wear and tear, overloading, damage caused by the misuse of man-made improper operation or accessories, do not be a free repair or replacement.

## 【基本參數】

1. 輸入電壓範圍：5V-25V
2. 最大工作電流：30A
3. 電壓精度範圍：±0.1V
4. 電流精度範圍：±0.1A

## 【使用方法】

1. 電壓電流輸出顯示，顯示U表示下個數據為電壓，顯示A表示下個數據為電流；
2. 接線如下圖：

## 【注意事項】

1. 請仔細閱讀完本說明書後再安裝產品。
2. 請不要超過安全電壓使用。
3. 請不要在雨中使用本產品，以免短路。
4. 請妥善保管本說明書，以便隨時查閱。

## 【保修條款】

我們對所購買的產品質量保1年（12個月），自購買之日起。這個質保只適用於產品在購買後出現產品質量問題。在產品保修期間，只要你憑借購買憑證（發票或收據）一切有質量問題的產品都可以免費維修或更換。但由于磨損，超負荷，人為操作不當或者配件的錯誤使用所造成的損壞，則不予以免費維修或替換。
